DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 17-35 is withdrawn in view of the following rejection. Claims 1-35 are allowable over the prior art.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 17-35 rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the treatment of arthritis, does not reasonably provide enablement for prevention of arthritis and the other various diseases listed. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims.

While applicants have shown that arthritis can be treated using the instant compounds, there is no apparent correlation that all of the listed disease can be treated using the same compounds. Also there is no correlation that these compounds when given can prevent mammals from getting these diseases.
